

Build with ABN and you're helping to rebuild lives in Victoria.

Over \$350,000 donated to the Victorian Bushfires Appeal.

For every home sold by the ABN Group in Western Australia or Victoria in February 2009, \$1,000 will be donated to the Victorian Bushfires Appeal, with a guaranteed minimum of \$300,000 to be donated by March 2009.

Furthermore, 1200 ABN staff have also generously donated their own money and raised over \$50,000 to date. This takes our total to over \$350,000 pledged to help rebuild the lives of the victims of Australia's worst natural disaster.

Involved in building thousands of homes in communities across Australia for the past 30 years, ABN Group understands the importance of helping those most in need. The ABN Foundation was formed on the premise of giving back to the community and has extended their hand to a variety of areas including medical research, relief work and the environment.

The Alcock Brown-Neaves Group would especially like to thank all of our staff and families for their generosity and compassion at this tragic time of hardship and loss for our fellow Australians.
